

CYCLE RCT

Website: www.icucycle.com

April 2020

On behalf of our team at the CYCLE Methods Centre:

THANK YOU to all of our healthcare providers who are working on the frontlines of COVID-19.

We are so grateful for everything you do.

To all of our CYCLE RCT sites and team members, **THANK YOU!**

Thank you for your continued dedication to CYCLE.

Thank you for continuing to follow study patients, despite many of our sites working remotely.

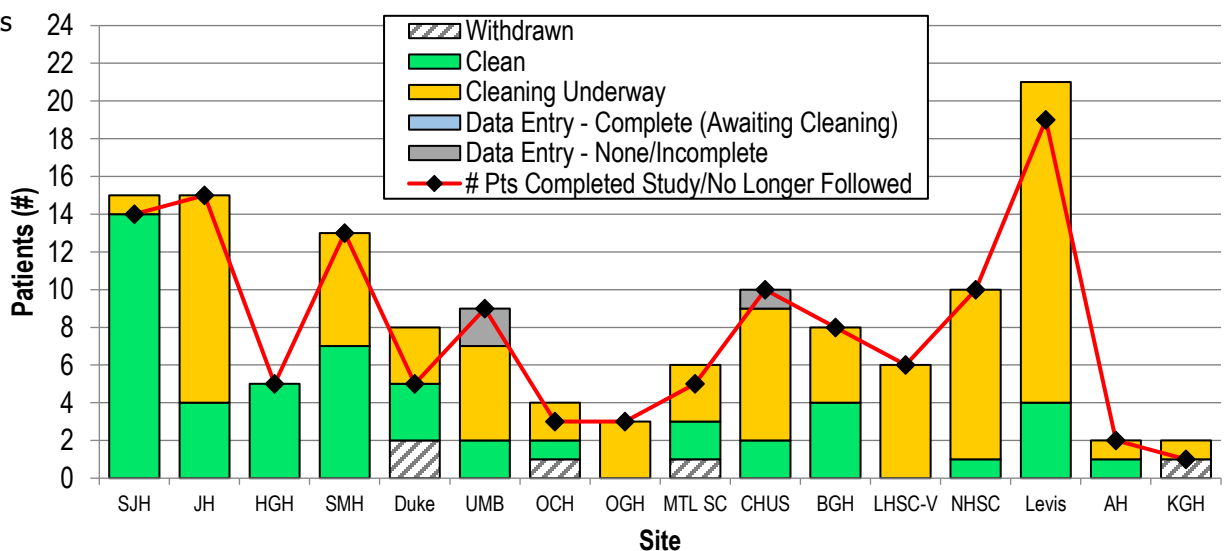

Thank you for your commitment to tracking and completing 90-day assessments.

Thank you for all of your hard work entering and cleaning data for our interim analysis.

Thank you for your frequent communication and quick responses to our Methods Centre Team.

Figure 1. This graph depicts data entry and validation progress as of Apr-28-20. These data represent 137 pts. who will be included in our interim analysis. Of 180 pts. to be included in the interim analysis, 96 (53%) have validated data.

Our goal is to validate 22 more pts. across our sites in the next two weeks. This will bring us to 66% completion!
